DISGRACED THOMPSON SOLELY TO BLAME FOR COST BLOWOUT

The party is finally over for Cameron Thompson, Federal Member for Oxley, Bernie Ripoll said today.

“The Member for Blair should be hung out to dry. For over 8 years he has continued being the one man roadblock to the full upgrade to the Ipswich Motorway and now his personal play thing of the Goodna bypass has been shown to be not viable”.

“It simply does not stack up. He has spent over \$10 million on reports to try and prove he was right, but no amount of money can cover up the fact he was terribly wrong and should be held personally responsible.

“What does stack up is however is the full upgrade of the motorway, half of which has finally been agreed to by the Federal Government” Mr Ripoll said.

“Mr Thompson has misled the community, compromised our safety on the roads and wasted \$10 million of taxpayers money. This is an absolute disgrace and he needs to do the decent thing, accept he is to blame and step down from his position” said Mr Ripoll.
